

Weatherford®

We are looking to expand our Wireline crew in Turkey; therefore, we are in search for a new **Wireline Field Operator** to join us in Ankara or Diyarbakir base. Duties may involve some technical elements but primarily focused on running equipment/machinery/systems. This is a hands-on role, and you will directly manipulate the equipment, machinery, or system. You will act at field operations as an effective member of a field crew, supporting the delivery under supervision of a Field Engineer or Field Specialist.

Responsibilities and duties:

- Understand and adhere to all safety regulations and applicable Weatherford Policies.
- Perform duties according to the documented Quality Policy and comply with all requirements of the Quality Systems Manual, Standard Operating Procedures and Workplace Instructions.
- Identify, explain function, and operate all auxiliary equipment.
- Identify and explain function of all primary equipment.
- Apply all the disciplines of driving, rigging up, operating, and rigging down equipment on location.
- Maintain equipment and accurate driving records as required by region specific transportation requirements.
- Maintain satisfactory driving record.
- Communicate details and directions in a clear and coherent manner.
- Required to work on a 24-hour call basis.
- Perform various other duties assigned by supervisor within the physical constraints of the job.

Requirements:

- Minimum 2-3+ years related experience (wireline or field experience in general from an Oil & Gas company).
- High School diploma, skilled labour certificate or equivalent.
- Mechanical Aptitude.
- Valid Truck Driver's License or the ability to obtain one.
- Valid Hazardous Materials endorsement or the ability to obtain one.
- Valid Tanker endorsement or the ability to obtain one.
- Work flexible schedule, including long and/or irregular hours.
- Good communication skills in Turkish (English medium/advanced level).
